OJO CALIENTE

(HOT SPRINGS.)

THESE Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Barrow Station on the Denver & Rio Grande Railway, from which point a daily line of stages runs to the Springs. The temperature of these waters is from 80 to 120°. The gases are carbonic. Altitude 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 100,000 grains of alkaline salts to the gallon being the richest Alkaline Hot Springs in the world. The efficacy of these waters has been thoroughly tested by the numerous cures effected to the following diseases: Paralysis, Rheumatism, Neuralgia, Consumption, Malaria, Bright's Disease of the Kidneys, Syphilis and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc., etc. Bored, Lacking and Baking, \$2.50 per day. Reduced rates given by the month. This resort is attractive at all seasons and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 10:00 a. m. and reach Ojo Caliente at 5 p. m. the same day. Fare for the round trip from Santa Fe to Ojo Caliente, \$7. For further particulars address:

ANTONIO JOSEPH, Prop.,

Ojo Caliente, Taos County, New Mexico

NATIONAL CAPITAL

Emile Solignac Appointed Register of Land Office at Las Cruces--Indian School Investigation.

QUIET SESSION IN HOUSE

Army Appropriation Bill Sent to Conference--Committee on Banking and Currency Holds a Turbulent Meeting.

Washington, Feb. 2.—The president today sent the following nominations to the senate:

Register of land office, Emile Solignac, at Las Cruces, N. M.
Receiver of public money, Daniel L. Sheets, at Durango, Colo.

In the Senate.
Washington, Feb. 2.—In the senate today, Senator Hawley (Conn.) secured the adoption of a resolution directing the secretary of the interior to furnish the senate with the total per capita cost of educating Indian children at certain Indian schools; total cost of transporting pupils to and from the schools; approximately what proportion of the children educated in the schools return to the blanket and camp condition, and what can be done to prevent such retrogression and continue the children in the lines of progress on which they have entered.

Pettigrew Resolution Called Up.
The vice president called for the resolution introduced by Senator Pettigrew (S. Dak.) declaring the senate opposed to the policy of the United States to acquire any territory, to defend which the navy would be required. Senator Hale (Maine) being satisfied the remarks the senator proposed to make would infringe upon a subject under discussion in executive session, said that he would move that the senate would go into an executive session. Upon Senator Pettigrew remarking he was willing, Mr. Hale's motion prevailed.

In the House.
Washington, Feb. 2.—In the house today the army appropriation bill was sent to conference. Mr. Hill (Rep. Ia.) Mr. Marsh (Rep. Ill.) and Mr. Cox (Dem. Tenn.) being appointed as conferees. The house resumed the consideration of the District of Columbia appropriation bill.

Turbulent Session of Currency Committee.
Washington, Feb. 2.—The house committee on banking and currency held a turbulent session today. Mr. Johnson (Rep. Ind.) declared that Chairman Walker was pursuing a "rule or ruin" policy as to the line of currency action the committee should take. Mr. Walker resented this, saying he would regard Johnson's course as personal if persisted in.

ANOTHER WARSHIP FOR CUBA.
Cruiser Montgomery Will Make Friendly Visits at Minor Cuban Ports.

New York, Feb. 2.—A Washington correspondent of the Herald telegraphs: "Encouraged by the excellent effect of the visit of the battleship Maine to Havana the administration has determined to send another man of war upon a friendly visit to the smaller Cuban ports. The vessel selected is the cruiser Montgomery, which is now taking on a supply of coal at Key West."

ATTEMPT TO PRECIPITATE A CRISIS.

Friends of Hawaii and Cuba in the Senate Preparing a Surprise for the Administration.

Chicago, Feb. 2.—A special to the Tribune from Washington says: "Quiet negotiations have been going on in the senate for several days looking to a sensational combination of the friends of both Hawaii and Cuba, with the object in view of precipitating a crisis on both questions without waiting either for the ratification of the annexation treaty or the slow movements of autonomy. It is proposed to draft an amendment to the diplomatic and consular appropriation bill containing, first, the entire wording of the Hawaiian annexation treaty; and, second, a positive declaration that a state of war exists in Cuba. A mere majority vote would be sufficient to pass this amendment. As it would be a part of the general appropriation bill, no rule of the house could prevent its consideration, and if passed by that body the president would have to approve or veto both the propositions at the same time."

DOESN'T BELIEVE IN SLASHING RATES

Santa Fe Will Not Out Rates to Meet Reduced Schedule of Union Pacific Between Chicago and Denver.

Topeka, Feb. 2.—"The Santa Fe road does not believe in slashing rates. If any other road can get advantage over the Santa Fe we are willing to let it enjoy the same. When we have an advantage we believe in making it."

This is what one of the general officials of the Santa Fe road said today in regard to the rumor that the Santa Fe would be compelled to cut rates in defense, when the reduced schedule between Chicago and Denver is inaugurated by the Union Pacific on next Sunday.

General Passenger Agent Black said today that there was no intention on the part of the Santa Fe to cut the Chicago-Denver rate.

TENNESSEE ELECTED A SENATOR.

Hon. Thomas B. Turley Chosen to Succeed Himself.

Nashville, Tenn., Feb. 3.—Thomas B. Turley, Democrat, was today elected United States senator by the legislature. He received 91 votes.

COLD WAVE IN EAST

Boston Dependent Upon One Telephone Wire for Outside Communication--Cases of Freezing.

NEW YORK RIVERS BLOCKED

Great Financial Loss Sustained--Numerous Vessels Stranded Along the Coast--At Least 15 Lives Lost--Large Number of Fires.

New York, Feb. 2.—Boston is still shut off from communication with the outside world, except by occasional telephone messages. At the hospitals there are many cases of frozen feet, fingers and limbs, and the surgeons are kept busy fixing up bones broken by falling. An ice gorge is forming in Long Island Sound at Fort Schuyler, threatening to interfere with navigation. The Hudson river at Sing Sing is frozen over, and if the cold continues another 24 hours, teams and pedestrians will be able to cross safely from shore to shore. All rail communication with Boston has been restored, while by telegraph there is communication as far as Newton, eight miles from Boston. Providence is still unconnected directly by wire with the outside world.

Sixteen Degrees Below at Winnipeg.
St. Paul, Minn., Feb. 2.—Below zero weather was reported from the northwest today. In this city it was 12 below at 6 o'clock; Winnipeg 16 below. Winnipeg was the coldest point.

Cold Day in New York.
New York, Feb. 2.—This is the coldest day of the season. The weather bureau thermometer registered five degrees below zero at 8 o'clock this morning, a drop of 20 degrees since yesterday at 2 p. m. The East and North rivers are full of ice and all ferry boats are much delayed.

Great Financial Loss.
Boston, Feb. 2.—The financial loss caused by the great storm, which swept New England Monday night and yesterday, will amount to more than first thought. In this city alone, the loss is over \$1,000,000. Up to 11 o'clock today a single telephone wire to Worcester is the only means of communication with the rest of the country. Reports of stranded vessels along the coast continue to come in. It is thought that at least 15 lives are lost. One feature of the storm was the large number of fires in the city and surrounding towns, while it was at its height.

Santa Fe Promotions.
New York, Feb. 2.—E. D. Keena, general solicitor of the Santa Fe railroad, was today elected first vice president, and Paul Morton, third vice president, was made second vice president of the great corporation.

NEW MEXICO SIFTINGS.

San Juan County.
Farmington is enjoying a veritable building boom.

Mr. Dallas Branch, of Branch Bros., proprietor of the stage line, and Miss Della Hughes, were united in marriage at Cedar Hill recently by Judge Graves.

E. D. Sharp announces that he has leased the San Juan County index to L. C. Grove, an experienced newspaper man of Denver. Mr. Sharp speaks for his successor a continuance of the liberal patronage heretofore bestowed upon his excellent paper.

The receipts of San Juan county during 1897 were \$7,774.50, and the expenditures for same year, including \$1,300 interest, amount to \$7,731.28. The cash balance in the county treasury on January 1, 1898, was \$3,849.21. Rather a satisfactory showing.

Mr. J. H. Holmes, manager of the Animas Valley Land & Irrigation company, has gone to Denver on business connected with the big ditch enterprise. Mr. Hitchcock has charge of the company's affairs during the absence of Mr. Holmes, says the Index.

The Animas River Land & Irrigation company had a number of visitors the first of the week. Among them was W. B. Lawson and L. C. Grove, of Denver; C. J. MacFarlane, of Denver; G. B. Albright, of Boone, Ia.; Mr. Stanley and son, and Mr. Miller, of Salida, Colo. They came to the fruit belt for the purpose of looking the country over and to locate land under the great canal.

Now is the time to haul the lumber for the new flouring mill. Mr. Trewhas has his order for the machinery placed with the manufacturer and it is now awaiting shipping orders. Mr. Trewhas says that as soon as the lumber for the mill is on the ground the machinery will be shipped, reports the Index.

Gallup Cleanings.
It was 20 degrees below zero in Gallup one day last week.

Gallup coal is being shipped to Phoenix and other Arizona cities.

About 800 men are employed in the different Gallup mines.

Nearly 100 of our miners were taken out to Johnson's tunnel on Sunday night to assist in the work of clearing and timbering the tunnel. Fifty cents an hour was offered for workers and quite a number were soon secured, and left on a special for the tunnel. Carpenters have been paid \$10 a shift; says the Gleaner.

Eddy County.
It is a mighty dull day that does not witness the birth of more than one baby in Eddy.

J. Beale and wife, formerly Miss Eva Webster and for some years one of the school girls of Eddy, came in from Tempe, A. T., last week and will make Eddy their home.

A party of neighbors and friends met at the home of Mr. and Mrs. E. F. Draper, on Wednesday evening, to celebrate the 75th birthday of Mrs. Draper's father, Mr. Shields, who resides at the family home in La Huerta. A very pleasant evening was spent.

Geo. N. Buss struck a 25 gallon flow some time since in the artesian well he has been boring on his place, at Roswell, and hopes to enlarge it soon.

Ben Duncan has purchased for C. S. McCarty, of Roswell, four thoroughbred Hereford cows from one of the best breeding farms in Missouri; the price for the four was \$1,000.

On Wednesday night some one entered the postoffice building at Roswell and stole about \$15 out of the drawer in the store and a lot of cigars. No attempt was made to molest the safe in the postoffice or the stamp drawer.

NEWS FROM ABROAD

Germany Has Prohibited Importation of American Fruit--Bulgarians Tortured to Death.

EARTHQUAKE IN ASIA MINOR

Hurricane in Scotland Does Great Damage to Shipping--French Consul Sent to Santa Fe--Other Late Happenings.

Berlin, Feb. 2.—The Prussian minister of finance, Dr. Miquel, issued a decree yesterday which goes into effect immediately, prohibiting the importation of every kind of American fresh fruit. United States Ambassador White sent a formal letter to the foreign office today, inquiring upon what authority this inhuman step was taken. The United States consul at Hamburg, Dr. Hugh Pictorial, telegraphed that 10,000 barrels of American apples had been forbidden to be unloaded, and two trains full of American fruit had also been forbidden to cross the frontier at Emmerich. On receipt of this news, Ambassador White sent a second and stronger remonstrance to the foreign office, calling attention to the violation of our treaty. The Prussian government claims that California and other fruit threaten the German trees and fruit.

Bulgarian Troubles.
Constantinople, Feb. 2.—The Bulgarian agent has presented a note to the Turkish government pointing out the serious occurrences at Vileyet Uskub, where 592 Bulgarians have been arrested on the charge of storing arms. The agent further alleged that many Bulgarians have been tortured to death, and the women and girls outraged. The agent urgently demanded the immediate cessation of oppression by the withdrawal of the military surrounding the locality, the transfer of all prisoners to Uskub for trial, and the dismissal of all Turkish officials.

Destructive Earthquake in Asia Minor.
Constantinople, Feb. 2.—A violent earthquake shock has been felt at Balikesir and around Bursa, in Asia Minor. Numerous fatalities resulted and great damage was done. The sultan has dispatched a relief commission to the scene of the disaster.

Hurricane in Scotland.
London, Feb. 2.—A hurricane has been sweeping over the Clyde district. A number of yachts were sunk in Gourock bay and much damage done to the shipping off the coast and considerable destruction caused on the land.

British Government Criticized.
London, Feb. 2.—The afternoon newspapers comment in severe terms upon the alleged withdrawal of Great Britain's demand for the opening of Port Ta Lien Wan. Some of the papers refuse to credit the report.

Death of Henry Scott.
London, Feb. 2.—Beauchamp Henry John Scott, sixth earl of Clonmell is dead. He was born in 1814 and was formerly captain of the Scots' guards.

Transferred to Santa Fe.
Paris, Feb. 2.—M. H. Desmurel, French consul at Manchester, Eng., is transferred to Santa Fe, N. M.

MARKET REPORTS.

New York, Feb. 2.—Money on call nominally, 1½ to 2 per cent; prime mercantile paper, 3 to 4; silver, 50½; lead, 83.45; copper, 10½.

Chicago.—Wheat, February, 98; May, 95½; corn, February, 36½; May, 28½; soybeans, 15.00.

Chicago.—Cattle, receipts, 15,500; market steady; beefs, \$3.85 to \$5.40; cows and heifers, \$2.25 to \$4.40; Texas steers, \$3.50 to \$4.35; stockers and feeders, \$3.35 to \$4.50. Sheep, receipts, 15,000; market strong; native sheep, \$3.00 to \$4.00; westerns, \$3.50 to \$4.55; lambs, \$4.25 to \$5.75.

Kansas City.—Cattle, receipts, 8,000; slow to 10c. lower; Texas steers, \$2.50 to \$4.25; Texas cows, \$2.50 to \$3.45; native steers, \$3.50 to \$4.95; native cows and heifers, \$2.90 to \$4.30; stockers and feeders, \$3.50 to \$4.85; bulls, \$3.25 to \$4.40. Sheep, receipts, 3,000; market, steady; lambs, \$4.05 to \$5.60; muttons, \$3.60 to \$4.50.

New Postoffice.
Denver, Colo., Feb. 2.—A postoffice has been established at Gardiner, Colfax county, N. M., with James A. Wiggins, Jr., as postmaster.

FIRE IN WINNIPEG.

Four Story Building Entirely Consumed Entailing a Loss of a Half Million Dollars.

Winnipeg, Feb. 2.—The McIntire block in the heart of the city burned this morning. The building was four-story, contained retail stores, sample rooms, offices and a secret society, and the lecture rooms of the Manitoba University. The building is a total loss amounting to \$500,000.

MADE BAD LOANS.

Chemical National Bank of New York Loses Large Amount--Cashier Resigns.

New York, Feb. 2.—William J. Quinlan, Jr., cashier of the Chemical National bank, has resigned. He acknowledged in a letter to the directors that he loaned \$300,000 of the bank's money without consulting the president, knowing the directors would not approve of his action. He denies that he profited by the loans.

The loans made by Quinlan were on western securities of various kinds and were negotiated by Francis Grabel, a promoter of lands, mining and irrigation schemes. It is conceded that Quinlan, as cashier, had the power to make the loans, but it is held that in a transaction involving so large an amount of money, he should have consulted the president. President Williams stated today: "We think that absolutely the worst is known, and are strongly in hopes a large part of the money will be recovered."

TREASURES IN GRANT

New Furnace of Copper Flat Smelter Blown in With Large Accumulation of Copper Ore.

BIG STRIKE IN CENTRAL

Full Force of Men Will Soon Be Put on Hanover Mine--Gold Hill and Pinos Altos Are Steady Producers.

Copper Flat District.
The new furnace at the Simpson smelter was blown in this morning. Every available receptacle about the works is filled with copper ore and everything indicates a long and successful run, says the Silver City Enterprise.

Central District.
A big strike has been made in the Texas shaft at a depth of 342 feet. The vein is eight feet in width, with three feet of fair grade shipping ore running well in gold and silver. There is an eight-inch streak of high grade ore showing argentite and silver. The ore body just struck in the shaft is the biggest and best ever found in the mine.

Santa Rita District.
J. B. Gilchrist is putting the old water-jacket furnace in shape for smelting as rapidly as possible. It is expected to start this furnace about February 1. The Yosemite, Guadalupe Chino and Oxide mines, which Mr. Gilchrist is working under lease, are all showing up well and turning out good quantities of copper ore.

A. E. Dawson, superintendent of the Santa Rita Copper & Iron company, is shipping 30 tons of iron ore per day from the company's mines to Pueblo, Colo.

HANOVER DISTRICT.

The old Hanover mine will put on the full force of miners again next week, says the Enterprise. A part of the force was laid off awaiting the starting of the Copper Flat smelter where the ore is reduced. While the smelter was shut down there was not sufficient storage room for the production of the mine when working to its capacity. Everything about the mine is now in first-class shape, connection having been made between the new working shaft and the great ore stopes. Immense quantities of high grade copper ore have been developed in the mine and are ready for extraction.

GEORGETOWN DISTRICT.

This old reliable silver mining camp is seldom in evidence as a producer these days, but occasionally some leaser makes a fortunate strike. Jo Schlosser was in this city, on Saturday, en route home to Georgetown, from Deming, where he had taken a batch of ore to the Corbett & Wyman's sampling works. The ore was taken from the Berry mine, formerly the McGregor property, which Mr. Schlosser is working under lease. The ore ran 53½ ounces silver per ton and the lot netted \$299.55 as the result of six days' work in the mine. Pretty good even at the low price of silver.

GOLD HILL DISTRICT.

Dr. G. N. Woods is working the Bobtail and Eagle mines with good results and expects every day to receive the delayed machinery with which to start the mill, when shipments of rich concentrates will be in order. The rich ore found in the bottom level, at 125 feet, in the Western Belle mine still continues. A sample of the ore taken for the Enterprise mining department, was assayed on Saturday and gave returns of 8.64 ounces gold and 24.6 ounces silver per ton. Eight ounces gold per ton is good enough for a little Klondike here at home.

PIÑOS ALTOS DISTRICT.

Development work upon the Pinos Altos Gold Mining company's properties is being prosecuted with vigor and with most satisfactory results. Ore is found in bodies of good proportions, and rich in gold, in all the openings in the several claims. Sinking upon the Gillette shaft was temporarily suspended while it was being retimbered. Sinking upon this shaft will be resumed within two weeks.

STRICTLY FIRST CLASS.

Housekeepers and restaurant managers can save money by purchasing meats, fish and oysters from Bischoff & Muller. Only strictly first-class meats sold.

TO RENT--UNFURNISHED.

House of four rooms, independent entrance and exclusive placita, recently occupied by Mrs. Long. Also three extra large rooms, entrance on placita. Both have sunny exposures. L. B. Prince.

Just received at Scheurich's: G. H. Mum's Ex. Dry, Chateau De Corbiac, Wachenheimer and other imported wines.

Royal makes the food pure, wholesome and delicious.

FOR SALE BY

H. B. CARTWRIGHT & BRO.

Weeks and will be persistently and vigorously prosecuted until the 1,000-foot level is reached. This shaft is now about 500 feet in depth. The great accumulation of ore from development work upon the various properties of the company necessitated the starting of the mill, which has been constantly at work for the past three weeks and is still at work, with but little decrease in the accumulation of ore, as it is produced from development work faster than the present mill can reduce it. The ore is concentrated, the concentrates being shipped to the Silver City Reduction works.

ALBUQUERQUE NOTES.

Robert C. McCabe, spoken of as "having been quite high in church circles," was arrested and jailed for issuing a number of worthless checks and obtaining value for the same. He attributes his downfall to the evil influence of John Barlevorn.

The ladies of the Woman's relief corps have arranged for an entertainment by Captain Jack Crawford, "the post scout," in this city, at the opera house, on the 2d of March.

J. J. Frey, general manager of the Santa Fe system, who has been in the city the past few days, left in his private car for Topeka, Kas., on Monday night, being accompanied as far as Las Vegas by Mrs. Frey.

A dispatch from Belen says: E. H. McDermott, the man wanted for the robbery of the depot at Magdalena some time ago and who escaped in the darkness from the officers at Socorro last Saturday night, was captured yesterday by Special Officer Frank Harris and Sheriff Bursum, of Socorro. McDermott was heading for Albuquerque and from there he intended to go north. McDermott was taken to Socorro.

A. E. D. Carscallen, who has for a long time been connected with the Democra in various capacities, deserts the ranks of journalism today to accept the management of the city department of the New York Mutual Life Insurance company under W. E. Harper.

Julianita, the 3-year-old daughter of Felipe Hubbell, of Pajarito, was so badly burned yesterday afternoon that it is feared she may not recover. The little one's father and uncle, Judge and Sheriff Hubbell, left for Pajarito as soon as the news was received.
